SEVERE ATTACK OF GRIP. ured by One Bottle of Chamberlata'

Cared by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most spreeable surprise is putting it very middy. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of leas duration, but the pains were far leas severe, and I had not used the contents of one bottle before Mr. Grip had bid me addeu."

DANGER OF COLDS AND GRIP.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take.—Adv.

The trust company asked the Probate Court

STUDENTS MISTREATED BY RUSSIAN POLICE. venty-Six Young Men Thrust Into

Prison, While Persons Who Re-

monstrated Were Injured. St. Petersburg, March 23.-Letters received here from Tomsk, West Siberia, describe the riots which occurred there March 2. About seventy students, it appears, attended a local court in connection with a stander case, and on leaving were surrounded by the police. The students broke

through the cordon and marched past the university, shouting:

"Down with the autocracy."

The number of those taking part in the demonstration was increased to some 3,000 persons, and the situation became so alarming that the Chief of Police barricaded the bridge and summoned re-enforcements. The Governor, Prince Vlasemsky, arrived on the scene and ordered the rioters to be attacked. Some of them were beaten and the whole body of rioters was finally overcome.

Seventy-six men were confined in the courtyard of the police station, where, it is claimed, they were much abused. Doctor Schlechter and a lawyer named Voznesensky, who remonstrated with the police, were seriously injured.

A petition to the president of the Tomsk Bar Association, signed by every lawyer in this city, corroborates this account and declares that the maitreatment of the prisoners was needless and willful.

The students met again March 5, protested against the treatment the rioters had been subjected to and marched through the streets, their ranks being augmented by 500 sympathizers carrying red flags and making revolutionary demonstrations. Vice Governor Delwig parleyed with the processionists and withdraw the soldiers. News regarding the subsequent developments has not yet been received here. university, shouting:
